**W. D. ANDREWS,**  
—PROFESSOR OF—  
**VETERINARY DENTISTRY,**  
Office at Truckee Stable, Reno, Nevada.

ALL EDUCATED VETERINARIANS ADVOCATE A Veterinary Dentistry, well knowing that no other method has yet been discovered that produces the same satisfactory results. I cut the front teeth of old horses so that the back teeth come together. Very few horses, young or old, but have more or less sharp edges or rough projections upon their molars. These sharp points lacerate the mouth, thereby causing trouble to the horse, and he tries in various ways to rid himself of the trouble. Some toss the head, drool or snort, others start suddenly or stop short, and some shy, drive sideways or hold their head in an unnatural manner. Blindness in one or both eyes, a rough coat of hair, a suffering horse and disagreeable driver is caused by a defective mouth. I carefully remove all irregularities and place the mouth in a level, natural condition. Veterinary dentistry is an act of humanity. It not only relieves suffering but produces a fine, pleasant driver, and gives you a healthy horse whose life is prolonged at least five years. I have had eight years' experience in this business and am qualified to give thorough satisfaction.

## DAILY NEVADA STATE JOURNAL

C. C. FOWNING, Editor and Proprietor.

## HOW TIME IS DEALING WITH HIM.

The San Francisco Bulletin says. There is at present in the Treasury of the United States only the sum of eight million standard dollars which have not yet been paid out or covered with certificates. This must be regarded as a most remarkable showing when placed alongside Mr. Cleveland's bullbabe about the danger to the national finances which silver threatened. It is not possible that any statesman could be more completely discredited than he has been on this momentous question. He was in no great hurry to save us from a collapse by reason of silver coinage that he made recommendations in relation to it, indirectly, to Congress, before he was installed. He returned to the charge two years later, having learned nothing by experience in the meantime. But Congress treated him as cavalierly on the second occasion as on the first.

There are now 275,000,000 standard dollars, represented by certificates, and 56,000,000 in actual dollars in circulation. The latter amount could easily enough be trebled if the policy of issuing no notes under \$10 had been adopted. For a time \$1 and \$2 bills were withdrawn, but some interest not very well understood forced their reissue. It was said that these shrapnelers were necessary for the settlement of small debts through the mails. We have now, all told, under the operation of the so-called Bland Act, \$339,000,000 of standard dollars, all in circulation except \$8,000,000. We will have to coin four times as much before we have as much silver in circulation as France, and France has but little more than one-half of our population.

Failing disastrously on silver, Mr. Cleveland made his second fight on the surplus. It is not long since that accumulation was in everybody's mouth. According to Democratic orators the surplus was a dreadful thing. The nation that had a surplus, they were quite sure, was on the high road to ruin. No other nation in the world was embarrassed in that way, and there was, therefore, something necessarily very wrong in the United States. Most of the other nations would like to have been troubled in a similar manner, but no statement of that kind met favor at the hands of Democratic financiers.

But the surplus of those days was in part an artificial creation. It was "cooked up" for partisan purposes. As a matter of fact there was no surplus at all, or, at best, a very small one. No nation can be said to have a surplus when it is in debt. Ours is fading away now in the purchase of bonds. Since August 3, 1887, there has been purchased \$201,760,650, and of this sum \$177,414,850 under the circular of April 17, 1888, of our bonds, paying the premium which they commanded, but \$44,932,993 55 was nevertheless saved in interest. That seems to be the common-sense method of getting away with that portion of the surplus which is not needed for the new navy or for national defense. One by one Mr. Cleveland's financial notions have been laid away. They have been nothing but financial scarecrows. The straw is sticking out of their arms and legs. The march of events has reduced him to the level of a Wiggins. He has been the prophet of calamities which did not come off. His messages at this time, if reproduced, would present a comical aspect.

Reno might emulate the example of Chicago in appointing some one to see that poor children attend school. In Chicago it is thought that 10,000 children will be found who have not clothing suitable to wear to school, and whose parents declare they are too poor to supply them. In Reno the number of such is comparatively small, but, no doubt, there are a good many cases that should be looked after. A slight present gain is a much greater future loss where the children of the poor are kept from school for financial reasons. The welfare of the Government depends upon the intelligence of the people. A full school attendance is a future aid to law and order.

A telegram has been received by Judge Arnot, at Placerville, from James R. Magness, Deputy State Surveyor, saying that California does not lose six miles of territory in rectifying the dividing line between California and Nevada, but that California gains three-fourths of a mile, which will give El Dorado and Alpine counties valuable properties, and the State of Nevada loses them.

The New York Herald's Washington special says: Negotiations are now going on between the Navy Department and Wm. Cramp & Sons in relation to having the new cruiser Baltimore sent to Newport for a test of her speed, over the measured mile. A number of naval officers believe the ship can make even better speed than shown on her official trial.

Colonel Switzer, Chief of the Bureau of Statistics, at the request of Secretary Windom, has tendered his resignation to take effect October 15th. Colonel Switzer was appointed from Missouri in 1885 by the Democratic Administration.

Kansas is said to have lost 58,000 in population since the last year, owing to crop failures in 1887 and 1888. The population, as returned by the Assessor, is about 1,480,000. In 1880 it was 996,000.

The Ohio State Fair was nearly drowned out by long-continued and copious rains, and it was such a failure, financially and otherwise, that the officers are greatly discouraged.

The cattlemen of Texas are about to form a trust. If they do we can safely predict that they will keep their stock well watered.

The women of Ogden are reported to be organized and burning disreputable houses.

## SILVER SACRIFICES SINCE 1873.

I have carefully compiled for the use of the Senate a complete table giving the production of silver since the demonetization of silver in 1873. The price at which it was sold, and the losses incurred for each year from January 1, 1874, to January 1, 1889, to a period of fifteen years, and at the yearly average price.

Production	Amount	Loss to
in ounces	realized	producer
Total	515,421,515	\$503,153,048
Think of it, the 515,421,515 ounces of silver which ought to have sold at \$1.2929 per ounce fine and thus realized \$665,786,645, were sacrificed to British greed for \$555,153,048, creating a loss of \$100,633,008 to the producers of the precious white metal of this country. This loss of over one hundred million dollars represents 78,010,084 ounces of pure silver, equal to 4,875,631 pounds avoirdupois, something appalling when considered that worse than stupidity is responsible for such a sacrifice. Pile up these 78,000,000 ounces of fine silver, coined into one dollar pieces, and you have a solid column of 525,675 feet, which would make 947 Washington monuments, piled one on top of the other, and as each monument would be 555 feet high, the dizzy height is enormous. Put them down on their face and they will stretch out for 2,418 miles, and will not only reach from Washington City to Denver, Col., but go beyond it for 652 miles; in fact after leaving Denver would line the road of the Denver & Rio Grande railroad all the way, passing Colorado Springs, Salida, cross over the Marshall pass, leave the State of Colorado, run into Utah, pass Pleasant Valley Junction, run over the heights of Soldier's Summit, right into the depot of Clear Creek, in Utah, or branch off into Scofield, Utah. But enough it makes one's heart ache to work on these statistics and to reflect how very little our Legislators know of the waste of over 78,000,000 ounces of pure silver, for which the miners have received no equivalent whatever.		

IVAN C. MICHELIS.  
WASHINGTON, D. C.

## BUYING SILVER.

The San Francisco Call says: Secretary Windom proposes to buy silver hereafter at the market price. Under the Cleveland Administration it was the custom to fish for sellers who, to make sure of selling, would take a fraction less than the current rate. Treasurer Jordan considered it his duty to get silver at the lowest possible point, as the profits of silver coinage were thereby increased. It is not probable that the change will make any immediate difference in the gold value of silver, but it puts the white metal on a better footing as a commodity. When Government rates were a shade below London quotations the Government rate of one month might become the London quotation of the next month. The Government being the largest single purchaser of silver had certainly something to do with fixing values.

Tanner Writes a Letter.

LITTLE FALLS, N. Y., Sept. 24.—Clay Hall, of this village, has received a letter from Corporal Tanner in reply to one of sympathy, which throws light upon the causes which led to his resignation. The letter is as follows: "My DEAR FRIEND:—I thank you for your hearty words of sympathy. I endeavored, as Commissioner of Penitents, to religiously carry out the promises made on the platform, and the utmost that can be proved with any show of success is that I was too liberal. The truth of the charge depends upon the appreciation of the man, who, as my superior, judges the action taken. It was very evident that the Honorable Secretary thought I was too liberal, and as he was Secretary and I only a Commissioner, of course I went under; but you can rest assured that I did not tender my resignation until I had the personal assurance of both the President and the Secretary that the report of the Investigating Committee which lay before them contained no reflection on my character and did not impeach my integrity. Very truly yours, JAMES TANNER."

Secretary Noble has transmitted to the Director of the Geological Survey a report by Special Agent Morrison on the condition of the Casa Grande "Great House" ruins in Pinal county, Arizona, with the instructions that the necessary steps shall be immediately taken to repair and protect the ruins under the authority granted in the Act of March 2, 1889, appropriating \$2,000 for that purpose. Special Agent Morrison says the front of the main building measures 70 feet and the width 43 feet; height of first story, 13 feet; second, 9 feet, and third and fourth stories, 8 feet. The greater part of the upper story has disappeared. The ruins are regarded as the most interesting remains of the prehistoric age to be found on the continent.

A public bath company has been incorporated in one of the larger cities of Illinois. More than 100,000 people are the organization of public bath companies, the probability of Democratic success becomes much nearer an absolute certainty.—Democratic exchange.

On the contrary if the Democrats will only bath, there will never be any apparent necessity for running a Democratic ticket.

The wall of J. B. Watson was filed at Sacramento Monday for probate. It disposes of an estate valued at about \$100,000. He leaves a farm in Placer county, Cal., and some bank and gas stock to his daughter, Mrs. George Ellory, and the residue to his widow.

The most valued inscription to be found in Mme. Patti-Nicotini's album is that written by the elder Dumas. "Being a man and a Christian," he wrote, "I love to listen to your singing, but if I were a bird I should die of envy."

Detectives in Utah had just made a strong case of train robbery against a man named Curtis when the real offenders, Joseph Nay and Ed Dayton, made a confession exonerating him.

A valued contemporary suggests that anybody can go down Niagara Falls, but the one who succeeds in going up the falls can take the leather medal.

Senator Wade Hampton wants the United States to spend \$50,000,000 in colonizing the colored people in Cuba.

## MOUTH AND THE MAN I SING.

I love the man who knows it all,  
From east to west, from north to south;  
Who knows all things, both great and small,  
And tells it with his tireless mouth;  
Who holds a listening world in awe,  
The while he works his iron jaw.  
His good, strong mouth! He wields it well!  
He works it just for all it's worth;  
Not Samson's jawbone famed could tell  
Such mighty deeds upon the earth;  
He pulls the throttle open wide,  
And works her hard on either side.

Up hill and down, through swamp and sand,  
It never stops; it never balks;  
Through air and sky, o'er sea and land,  
He talks, and talks, and talks, and talks,  
And talks, and talks, and talks, and talks,  
And talks, and talks, and talks, and talks.

Good Lord, from evils fierce and dire,  
Save us each day—from fear and woe,  
From wreck and flood, from storm and fire,  
From sudden death, from secret foe;  
From blighting rain and burning drought—  
And from the man who plays his mouth.

## THE CALIFORNIA

## POWDER WORKS,

230 California Street,

## SAN FRANCISCO,

Manufacture and have constantly on hand

## SPORTING,

## MINING,

## and BLASTING

## POWDER,

A superior quality, fresh from the mills. It is being constantly increased and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In the market. We have been awarded

Three Gold Medals!

At the MECHANIC INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER.

Thus making it vastly superior to any other compound now in use

Circular containing a full description of this Powder can be obtained on application at the offices of any of our agents.

## STAPLE &amp; FANCY DRY GOODS

## GENTS' FURNISHINGS,

## HOUSEHOLD FURNISHINGS,

## READY-MADE CLOTHING

## And BOOTS AND SHOES.

Please note the various reasons by which I claim I have advantage over all competing houses:

- 1st. I BUY FOR CASH, and cash only.
- 2d. I VISIT THE MARKETS IN PERSON, frequently, and buy my own goods myself, for the lowest possible SPOT CASH PRICE.
- 3d. My AIM AND AMBITION IS BIG BUSINESS, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view—to give everybody good value for their money—success is already achieved, as I challenge anyone to dispute that I make the lowest prices.
- 4th. My STORE IS THE THE LARGEST AND BEST LIGHTED of any in the city—the three large plate-glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well-regulated store.
- 5th. I ENGAGE THE BEST AND MOST EXPERIENCED AND SKILLED SALESMEN that can be found in this country. W. R. Lett has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.
- 6th. I DO JUST AS I ADVERTISE; I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that. Nevertheless many of our merchants of to-day advertise under the head of selling goods at cost.
- 7th. ALL GOODS ARE MARKED IN PLAIN FIGURES, and no goods are misrepresented.

HAVING GIVEN SEVEN REASONS WHY I LEAD ALL COMPETING houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

## In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including fine French Cashmeres, French Camel's Hair, Beatrice Cloths, French Foulle, Tricot Cloths, Tricotine Cloths, Albatross, Nuns' Veiling, French Debriges, Fancy Striped Alpaca in plaids and stripes. I keep all the leading patterns found in the market.

## The Black Goods Department

Is well stocked with all the latest and best known brands of French Cashmere, French Camel's Hair, French Sabel, Albatross, Nuns' Veiling, Siellian Cloths and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

## The Corset Department

Receive special attention, as I carry all the leading makes, including the famous O. P. Corset, and also the P. D., which I sell at prices that defy competition.

## The Kid Glove and Button Department

Is replete with all the shades that can possibly be obtained this side of the Rocky mountains.

## The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hosiery that are manufactured on this coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to the

## Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently ordered the above stock, and will say that my success in that department has surpassed all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

## In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark—that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell suits for men from \$5 up.

## In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking forward for an enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the largest and best-selected stocks of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

## In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Muslins, etc. Gingham and Calicoes in endless variety.

Thanking the People of Reno and the Public in General for their Kind Patronage for the Past Year, and Soliciting a Continuance of the Same, I Remain, Respectfully,

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

### THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO PROPERTY

Is the Cheapest on the Coast in comparison with that of other cities.

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno. Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

### RULES OF THE TRACK.

Entrance to all trotting and running races to close with the Secretary at 9 o'clock P. M. on Tuesday, August 28, 1889.  
All entries to be made in writing, to give sex, color and marks of horses. Also name and residence of owner, and in trotting races, the name of the driver, and any other particulars that will enable the audience to distinguish the horse in the race.  
Write "Entries to Races," on outside of envelope and seal.  
Entrance fee ten per cent of purse, to accompany entries.  
In all races, 5 or more to enter and 3 or more to start.

National Association rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, and any other races advertised for any day.  
Unless otherwise ordered by the Board, no horse is qualified to be entered in any District race that has not been owned and kept in the District six (6) months prior to the day of the race, and shall be held liable to penalties prescribed by the National Association and Rules of the State Agricultural Society and capitation from the Association.  
If, in the opinion of the Judges, any race cannot be completed on the closing day of the Fair, it may be continued or decided off at the option of the judges.

In all races noted above, five or more paid up entries required to fill and three or more horses to start, but the Board reserves the right to hold entries and start a race with a less number and deduct a proportionate amount of the purse.  
When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 65% to the first and 35% to the second.

Rules of the State Agricultural Society to govern running races except where conditions named are otherwise.  
The Board reserves the right to change the order of each day's racing.  
Any person not intending to start his horse must notify the Secretary in writing on or before 6 o'clock the evening previous to the day of the race.  
Horses entered in races can only be withdrawn by consent of the Judges.

For a walk-over in any race a horse shall be entitled only to his own entrance fee and one-half of the entrance received from the other entries for said purse, and a horse winning a race entitled to first money only, except when distancing the field, then entitled to first and third money only. A horse winning but one money under any other circumstances.

The attention of all parties interested in particularly called to the rules of the National Trotting Association, under the provisions of which, except as otherwise specified, all matters pertaining to the trotting races shall be conducted.  
Races to begin each day at 1 o'clock P. M. sharp.  
J. W. THOMPSON, President.  
F. L. HALLSTED, Secretary, Quincy.  
R. L. DAVIS, Asst. Sec., Susanville.

## THE CALIFORNIA POWDER WORKS,

230 California Street,

SAN FRANCISCO,

Manufacture and have constantly on hand

SPORTING,

MINING,

and BLASTING

POWDER,

A superior quality, fresh from the mill. It is being constantly renewed and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In the market. We have been awarded

Three Gold Medals!

At the MIDWINTER INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong

explosive now in use, and the lifting force of the

very

BEST BLASTING POWDER,

Thus making it vastly superior to any other compound now in use

Circular containing full description of this powder can be obtained on application at the office of any of our agents.
